CANON XL-1 LIGHT KITS

Belts or waist packs are no longer needed to power a Frezzi Mini-Fill, Dimmer Mini-Fill, or Mini-Sun Gun on the popular Canon XL-1 camera. By utilizing the Canon MA-100 shoulder pad accessory and the Frezzi NP1-CB camera bracket, a separate battery for powering your light may be attached directly to the back of the camera. Frezzi's reliable FNP-1S battery will power a Mini-Fill with a 50 watt bulb for over 30 minutes, a 35 watt bulb for over 45 minutes, and a 20 watt bulb for over 75 minutes.
